## AWARDS OF EXCELLENCE ISSUE

**PLUS:**  
Your Guide to  
AQUA Live

## **RYAN HUGHES DESIGN BUILD** TAMPA, FLA.

This project, coined the Bluff View, was created to blend a traditional style pool with a more modern, relaxing one. The design is perfect for outdoor gatherings, inviting people of

all generations to seamlessly blend together. The seating areas, curves and circular elements of this 1,200-square-foot pool were expertly placed throughout by the RHD team.

Featured on the natural, rocky grotto is a slide to enjoy on a warm summer day. A multi-layered, vanishing-edge sun shelf bleeds into a beautiful view of Florida's intracoastal waterway.

### **POOLS WITH A VANISHING EDGE**

**Decking Material:**

Travertine Pavers

PALM DESERT, CALIF.  
**POOLS WITH A VANISHING EDGE**  
Decking Material: Porcelain Tile

## RYAN HUGHES DESIGN BUILD TAMPA, FLA.

This well-executed project is meant to capitalize on the architecture and layout of the property's Mediterranean Villa-like home. While the design accents the layout of the house, the materials, fire bowls and colors follow the traditional vibe of the architecture.

The design for the

pool starts long and narrow, then bends around a sunken fire pit. Permanent outdoor seating offers a cozy environment near the fire, complemented by a television that the homeowner intended for family movie night. From the fire pit, guests can see the raised, all glass tile spa

in the pool, which is nestled next to another television.

Professional space planning made the project all possible within the unique shape of the house. Throughout the enclave of the house, the design allowed for different areas to be defined with varying materials.

### TRADITIONAL

**Decking Material:**

Travertine Pavers

**Pool Interior Finish:**

Pebble Tec

**RUSSELL POOL COMPANY**

## RYAN HUGHES DESIGN BUILD TAMPA, FLA.

Calm, chic and peaceful captures the aesthetic of this modern pool design. A cool, walk-in pool combined with a fire-side infinity spa creates the perfect space for

year-round serenity. Added lounging areas are positioned throughout the glass-enclosed structure to encourage gatherings with family and friends. The blue tones of the

tile, mixed with the green of the plants, the orange of the fire and the tan of the tiles, further strengthens the soothing tone of this contemporary pool design.

### SCREENED ENCLOSED POOLS
