RYAN HUGHES DESIGN BUILD

LOCATION: TAMPA, FLORIDA

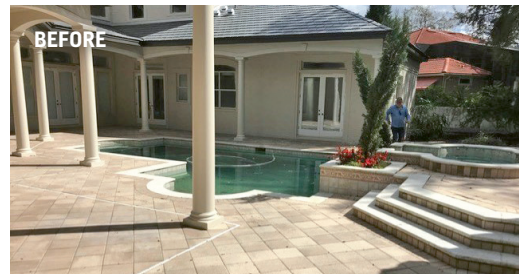

SQUARE FOOTAGE: 5,320

DESIGNER: RYAN HUGHES

LANDSCAPE ARCHITECT: JEFF ZOCK

The clients wanted to offer family and guests the finest in outdoor living, so the company enclosed thousands of square feet under an engineered, arched ceiling. The truly chic outdoor rooms range from a Koi pond patio to a state-of-the-art equipped outdoor kitchen, and an illuminated sofa to a glass-tile-cladded art wall—all of it surrounded by shimmering water and contemporary lighting.

A sunken fire pit appears to float within the 1,720-square-foot pool, while black Mexican pebbles border the similarly colored tile-perimeter overflow spa. From their perch on a glistening tile sun shelf, the walls along the pool illustrate the mix of water features. A raised ipe wood deck next to the Koi pond provides a unique outdoor area with lounge chairs and modern giant pebble seating.
